

## Hackathon 03

- Task for Day 01.

- Step 1 = Choose your Marketplace Type.
  - General E-Commerce
- Primary Purpose:

I have chosen General E-Commerce for my market-place. Its main purpose is to offer a platform where customers can easily buy a different products like shoes and shirts. making shopping easy and accessible.

- Step 2: Business Goals.

1: What problem does your marketplace aim to solve?

- Our marketplace solve the problem of finding shoes for different styles. It offers to unique shoes for easily available to everyone.

2: Who is your target audience?

- My target audience includes individuals of all ages who value quality, comfort, and style in footwear. Whether they are looking for casual, formal, and trendy shoes.

3: What products or services will you offer?

- I will offer a variety of footwear, including casual, formal and trendy shoes for everyone.

4: what will set your marketplace apart (e.g., speed, affordability, customization)?

- My marketplace will stand out through a combination of high-quality footwear, affordable pricing and a wide variety of styles to cater to everyone's needs.
